

NODE RED

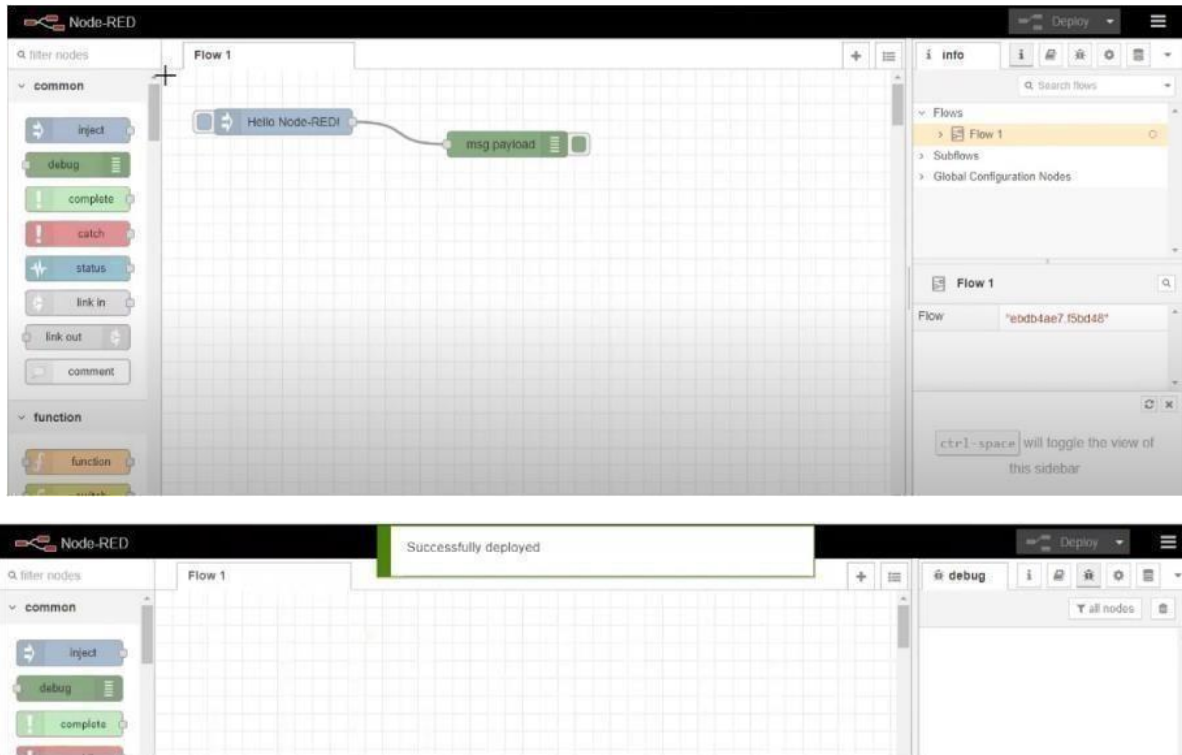

Date	19 September 2022
Team ID	PNT2022TMID21384
Project Name	Gas Leakage monitoring & Alerting system for Industries
Project TEAM members	917719D114 – ARIKARASHRI. K 917719D127 – NITHISH KUMAR. M 917719D129 – RANJITH KUMAR. P 917719D130 – RUTHRAM. M 917719D135 – UDHAYAKUMAR. U

AIM:

- To Create NODE-RED Services

CREATING NODE-RED:

The screenshot displays the IBM Cloud console interface for a Node RED application. The top navigation bar includes the IBM Cloud logo, a search bar, and user account information (ARIKARASHRI K's Acc...). The main content area is titled 'Node RED IBM' and includes an 'Add tags' link. On the left, the 'Details' section shows the app URL, source code download button, resource group (Default), deployment target, and creation date (11/18/2022). Below this, the 'Services' section lists 'Cloudant' with links to the dashboard, documentation, and API reference, along with a 'Connect existing services' and 'Create service' button. The central 'Deployment Automation' section features a 'Deploy your app' button and a note about enabling Continuous Delivery. On the right, a 'Getting started quickly' sidebar provides a 5-step guide for configuring the app, connecting services, and deploying it. An 'ASK A QUESTION' button is visible at the bottom right of the sidebar.

RESULT:

- Successfully created a Node RED service on IBM Cloud.
